ENVIRONMENTAL POLICY

Our goal is to acquire accredited standards of excellence in environment management and form an ongoing programme of sustainable improvement including aspirations to meet the highest standards of SHIFT (Sustainable Homes Index for Tomorrow). In pursuit of the ISO 14001 Standards, our policy framework, the tasks we have identified and responsibilities we have assigned ourselves are set out below, namely to:

- Comply fully with all relevant legal requirements, Codes of Practice and Regulations.
- Prevent pollution to land, air and water.
- Reduce water consumption and improve water efficiency.
- Increase energy efficiency across the business.
- Minimise waste and increase recycling within the framework of our waste management procedures.
- Identify and manage environmental risks associated with hazardous materials.
- In partnership with the Local Authority manage the municipal waste that affects our business.
- Involve customers, partners, clients, suppliers and sub-contractors in the implementation of our objectives.
- Control the waste management of our construction sites.
- Promote environmentally responsible purchasing.
- Provide suitable training to enable employees to deal with their specific areas of environmental control and actively promote involvement.
- Improve the environmental efficiency of our transport and travel arrangements.
- Establish targets to measure the continuous improvement in our environmental performance.
- Seek effective ways for adapting to climate change.
- In partnership with the Local Authority seek to prevent fly tipping on **mhs** property.
- Comply with ecological standards that impact on construction and development.

Signed
